### 2004-Homeland Security Grant Program – First Responder Grant Program

The foundation of the FY 2004 SHSP authorized equipment list (AEL) is the Standardized Equipment List (SEL), which was developed by the Interagency Board for Equipment Standardization and Interoperability. The new AEL also comports closely with the SEL, but has additional categories and equipment. A cross section of officials representing the U.S. Departments of: Justice, Public Health Service, Energy and State and local CBRNE response experts assisted in the development of this authorized equipment list and in identifying unallowable items. This list is a guide. Specific questions should be addressed to the NH Grant Administrator (State Administrative Agency) who in conjunction with the U.S. Department of Homeland Security will make final clarifications and determinations.

The list attached was received from the Department of Homeland Security with the 2004 Grant Program Guidance. It was reviewed by the NH Local Advisory Committee for Homeland Security grants on December 10, 2003 with recommendations herein. The Commissioner's Ad Hoc Homeland Advisory Committee further reviewed these recommendations on 12/18/03 and 2/9/04 with final recommendations forwarded to the Commissioner of Safety and approved herewith. Further approved by Governor's Ad Hoc Committee, 9/16/04.

# **I: Personal Protection Equipment**

# \*\*\*Level A (Haz-Mat Team member only by pre-approval-speak with NH SAA Grant Administrator)\*

Fully Encapsulated Liquid and Vapor Protection Ensemble, reusable or disposable (tested and certified against CB threats)

Fully Encapsulated Training Suits

Closed-Circuit Rebreather (minimum 2-hour supply, preferred), or open-circuit Self Contained Breathing Apparatus (SCBA) or, when appropriate, Air-Line System with 15-minute minimum escape SCBA Spare Cylinders/Bottles for rebreathers or SCBA and service repair kits

Spare Cylinders/Bottles for repreatners or SCBA and service repair kits

Chemical Resistant Gloves, including thermal, as appropriate to hazard

Personal Cooling System; Vest or Full Suit with support equipment needed for maintaining body core temperature within acceptable limits

Hardhat/Helmet

Chemical/Biological Protective Undergarment

Inner Gloves

Approved Chemical Resistant Tape

Chemical Resistant Boots, Steel or Fiberglass Toe and Shank

Chemical Resistant Outer Booties

## Level B\*

Liquid Splash Resistant Chemical Clothing, encapsulated or non-encapsulated

Liquid Splash Resistant Hood

Closed-Circuit Rebreather (minimum 2-hour supply, preferred), open-circuit SCBA, or when appropriate, Air-Line System with 15-minute minimum escape SCBA

Spare Cylinders/Bottles for rebreathers or SCBA and service/repair kits

Chemical Resistant Gloves, including thermal, as appropriate to hazard

Personal Cooling System; Vest or Full Suit with support equipment needed for maintaining body core temperature within acceptable limits

Hardhat/helmet

Chemical/Biological Protective Undergarment

Inner Gloves

Approved Chemical Resistant Tape

Chemical Resistant Boots, Steel or Fiberglass Toe and Shank

Chemical Resistant Outer Booties

#### Level C\*

Liquid Chemical Splash Resistant Clothing (permeable or non-permeable)

Liquid Chemical Splash Resistant Hood (permeable or non-permeable)

Tight-fitting, Full Facepiece, Negative Pressure Air Purifying Respirator with the appropriate cartridge(s) or canister(s) and P100 filter(s) for protection against toxic industrial chemicals, particulates, and military specific agents

Tight-fitting, Full Facepiece, Powered Air Purifying Respirator (PAPR) with chemically resistant hood with appropriate cartridge(s) or canister(s) and high efficiency filter(s) for protection against toxic industrial chemicals, particulates, and military specific agents

Equipment or system batteries will include those that are rechargeable (e.g. NiCad) or non-rechargeable with extended shelf life (e.g. Lithium)

Chemical Resistant Gloves, including thermal, as appropriate to hazard

Personal Cooling System; Vest or Full Suit with support equipment

Hardhat

Inner Chemical/Biological Resistant Garment

Inner Gloves

Chemical Resistant Tape

Chemical Resistant Boots, Steel or Fiberglass Toe and Shank

Chemical Resistant Outer Booties

Closed-Circuit Rebreather (minimum 2-hour supply, preferred), open—circuit SCBA, or when appropriate,
Air-Line System with 15-minute minimum escape SCBA

Spare cylinder/bottles for rebreathers or SCBA

SCBA Service and repair kits

#### Level D

\*Selected when no respiratory protection and minimal skin protection is required and the atmosphere contains no known hazard and work functions preclude splashes, immersion, or the potential for unexpected inhalation of . or contact with hazardous levels of any chemicals.

Escape mask for self-rescue

\*During all CBRNE response operations the incident commander determines the appropriate level for PPE. Personnel entering protective postures must undergo medical monitoring prior to and after entry.

\*All SCBAs must meet standards established by NIOSH for use by emergency preparedness and response personnel when exposed to CBRNE agents in accordance with Special Tests under NIOSH 42 CFR 84.63© - procedure # RCT-CBRN STP -002 dated December 14, 2001.

\*Grant Recipients must purchase PPE certified as complaint with Class I, Class 2, Class 3, requirement of NFPA. See the following websites: http://www.nfpa.org and http://www.cdc.gov/niosh

#### 2. CBRNE Search and Rescue Equipment

Hydraulic tools; hydraulic power unit

Listening devices, hearing protection

Search cameras (including thermal and infrared imaging)

Breaking devices (including spreaders, saws, and hammers)

Lifting devices (including air bag systems, hydraulic rams, jacks, ropes, and block & tackle)

Blocking and bracing materials

Evacuation stretchers, baskets, and chairs (for the evacuation of disabled personnel)

Ventilation fans

Rescue ropes and ladders (including rescue pulley systems)

Confined Space Kits (such as MSA Watchman)

Underwater equipment including: lights, metal detectors, communication and video units, lift bags, water rescue helmets, ice hooks, buoyancy compensator, and underwater scooter/DPV

SCUBA equipment including: exposure and pressurized suites, face masks, regulators, air tanks, and pony bottles

# 3. Interoperable Communications Equipment

\*All Communication equipment purchased MUST be APCO-25 (P-25) compliant . Contact SAA Grant Administrator for more information.

Land Mobile, Two-Way In-Suit Communications (secure, hands-free, fully duplex, optional), including air-to-ground capability (as required)

Antenna and tower systems\*\*\* (Tower Systems for State Agency coordinated interoperable communications needs only-contact SAA Grant Administrator)

Leasing and rental of tower space

Personal Alert Safety System (PASS) – (location and physiological monitoring systems optional)

Personal Accountability Systems

Individual/portable radios, software radios, portable repeaters, radio interconnect systems, satellite phones\*\*\*(Satellite phones to be limited by special request to and approval by First Responder Radio Interoperability Committee-contact SAA-Grant Administrator), batteries, chargers and battery conditioning systems

Computer Systems designated for use in an integrated system to assist with detection and communication efforts (must be linked with integrated software packages designed specifically for chemical and/or biological agent detection and communication purposes)

Aviation and maritime security voice and data transmission equipment

Portable Meteorological Station (monitors temperature, wind speed, wind direction and barometric pressure at a minimum)

Computer aided dispatch system and enhancement of 911 systems, and mobile computer data systems to include pagers, \*\*\*(palm pilot to be limited to use for and loaded with emergency services based software-general use PDA not allowed – contact SAA Grant Administrator)

Commercially available crisis management software

Mobile Display Terminals

# 4. Detection Equipment

Equipment to sample, detect, identify, quantify, and monitor for CBRNE agents and enhance detection capabilities.

#### **Chemical**

M-8 Detection Paper for chemical agent identification

M-9 Detection Paper (roll) for chemical agent (military grade) detection

M-256 Detection Kit for Chemical Agent (weapons grade-blister: CX/HD/L; blood: AC/CK; and nerve: GB/VX) detection

M-256 Training Kit

M-18 Series Chemical Agent Detector Kit for surface/vapor chemical agent analysis

Hazard Categorizing (HAZCAT) Kits

Photo-Ionization Detector (PID)

Flame Ionization Detector (FID)

Surface Acoustic Wave Detector

Gas Chromatograph/Mass Spectrometer (GC/MS)

Ion Mobility Spectrometry

Stand-Off Chemical Detector

M-272 Chemical Agent Water Test Kit

Colormetric Tube/Chip Kit specific for TIC's and CBRNE applications

Multi-gas Meter with minimum of 02 and LEL

Leak Detectors (soap solution, ammonium hydroxide, etc)

pH Paper/pH Meter

Waste Water classifier Kit

Oxidizing Paper

Protective cases for sensitive detection

#### Biological

Point Detection Systems/Kits (Immunoassay or other technology)

Radiological/Nuclear

Radiation detection equipment (electronic or other technology that detects alpha, beta, gamma, and high intensity gamma)

Personal Dosimeter

Scintillation Fluid (radiological) pre-packaged

Radiation monitors

# Explosive \*\*\*(Limit to FBI recognized and legally accredited recognized Bomb squads only

Canines (initial acquisition and initial operational capability only)

#### 5. Decontamination Equipment

#### **Chemical**

Decontamination system for individual and mass application with environmental controls, water heating system, showers, lighting, and transportation (trailer)

Decon litters/roller systems

Extraction litters/rollable

Runoff Containment Bladder(s), decontamination shower waste collection with intrinsically-safe evacuation pumps, hoses, connectors, scrub brushes, nozzles

#### Spill Containment Devices

Overpak Drums

Non-Transparent Cadaver Bags (CDC standard)

Hand Carts

Waste water classification kits/strips

#### **Biological**

HEPA (High Efficiency Particulate Air) Vacuum for dry contamination

# 6. Physical Security Enhancement Equipment

# Surveillance, Warning, Access/Intrusion Control Ground

Motion Detector Systems: Acoustic; Infrared; Seismic; Magnetometers

Barriers: Fences; Jersey Walls

Impact resistant Doors and Gates

Alarm systems

Portal Systems

Video Assessment/Cameras: Standard, Low Light, IR, Automated Detection

Personnel Identification: Visual; Electronic; Acoustic; Laser; Scanners; Cyphers/Codes

X-Ray Units

Magnetometers

Vehicle Identification: Visual; Electronic; Acoustic; Laser\*; Radar\* (\*Laser and radar are not for routine traffic patrol or related activities)

#### Waterfront

Radar Systems

Video Assessment System/Cameras: Standard, Low Light, IR, Automated Detection

Diver/Swimmer Detection Systems; Sonar

Impact Resistant Doors and Gates

Portal Systems

Hull Scanning Equipment

Plus all those for ground

	Vessel Barriers
Sensors-Agent/	Explosives Detection
	Chemical: Active/Passive; Mobile/Fixed; Handheld
	Biological: Active/Passive; Mobile/Passive; Mobile/Fixed; Handheld
	Radiological
	Nuclear
	Ground/Wall Penetrating Radar
Inspection/Detection	
	Vehicle & Cargo Inspection System – Gamma-Ray
	Mobile Search & Inspection System – X-Ray
	vasive Radiological/Chem/Bio/Explosives System – Pulsed Neutron Activation
<b>Explosion Protect</b>	
	Blast/Shock/Impact Resistant Systems
	Protective Clothing
	umn and Surface Wraps; Breakage/Shatter Resistant Glass; Window Wraps
	Disarm/Disable Systems (***Limited to FBI accredited, recognized Bomb squads)
Support Equipmen	nt for Continuation of Critical Infrastructure Operations
	Large fixed generators
	Fuel storage containers
	Back-up operating computer hardware and programming software
	Self-monitoring sensors and alarms
<i>7</i>

# 8.CBRNE Logistical Support Equipment

Logistical support gear used to store and transport equipment to the CBRNE incident site and handle it once on-site. May include hand tools required to support a variety of tasks and to maintain equipment purchased under the grant as well as general support equipment intended to support the CBRNE incident response.

Equipment trailers

Staging tents and portable shelter units

Weather-tight containers for equipment storage

Software for equipment tracking and inventory

Handheld computers for Emergency Response applications

0 1	11	1 1	. 1	
Sma	ш	hand	too	S

Binoculars, head lamps, range finders and spotting scopes (not for weapons use)

Night vision goggles

Light sets for nighttime operations/security (including emergency light poles)

Light & Heavy duty generators to operate search & rescue equipment, light sets, water pumps for decontamination sets

Electrical Current Detectors and DC to AC inverter equipment

Equipment harnesses, belts, and vests (including incident command vests)

Isolation containers for suspected chemical/biological samples

Bull horns and other PA systems

Traffic and crowd control devices (traffic and reflective cones, arrow and zone signs, portable barriers)

Water pumps for decontamination systems

Bar code scanner/reader for equipment inventory control

Badging system equipment and supplies

Cascade system for refilling SCBA oxygen bottles

SCBA fit test equipment and software to conduct flow testing

Testing equipment for fully encapsulated suits and respirators

Cooling/heating/ventilation fans (personal and decontamination tent use)

HAZMAT gear bag/box

# 9. CBRNE Incident Response Vehicles

#### \*\*\*Please contact SAA Grant Administrator regarding this category. Command

<u>Vehicles/Units/Response Vehicles</u>, etc. MAY ONLY be funded at 50% of the total Local Homeland Security population based allocation. 100% funding *may* be considered if a Threat/Risk based competitive application is accepted for review by the SAA –Commissioner's Ad Hoc Homeland Grant Review Committee. Contact SAA Grant Administrator for details.

#### Mobile command post vehicles\*\*\*\*

Hazardous materials (HazMat) response vehicles (limited to State recognized Haz-Mat teams)

Bomb response vehicles \*\*\*(limited to FBI accredited, recognized bomb squads)

Prime movers for equipment trailers

Multi-wheeled all terrain vehicles for transporting personnel and equipment to and from the hot zone

2-wheel personal transport vehicles for transporting fully suited bomb technicians, Level A/B suited technicians to the Hot Zone \*\*\*(Limited to FBI recognized, accredited state bomb squads)

Mobile Command Unit\*\*\*\*

#### Mobile Morgue Unit\*\*\*

Response vehicles to deploy bomb, hazmat, and special weapons personnel, equipped to detect chemical, biological and radiological materials; these vehicles may be armored to protect these personnel from explosions and projectiles when required to enter hot zones \*\*\*(Contact SAA Grant Administrator-will be limited to recognized, established Haz-Mat and SOU/SWAT teams as of 2003)

# 10. Medical Supplies and Pharmaceuticals

# Medical Supplies-(limited to medical, EMS use-contact SAA Grant Administrator)

Automatic biphasic external defibrillators and carry bags

Equipment and supplies for establishing and maintaining patient *airway at the advanced life support level* (to include OP and NG airways; ET tubes, styletes, blades, and handles; portable suction devices and catheters; and stethoscopes for monitoring breath sounds)

### Blood pressure cuffs

IV administration sets (macro and micro) and pressure infusing bags

IV catheters (14,16,18,20, and 22 gauge)

IV catheters (Butterfly 22,24 and 26 gauge)

Manual biphasic defibrillators (defibrillator, pacemaker, 12 lead) and carry bags

Eye lens for lavage or continuous medication

Morgan eye shields		
Nasogastric tubes		
Oxygen administration equipment and supplies (including bag valve masks; rebreather and non-rebreather		
masks, and nasal cannulas; oxygen cylinders, regulators, tubing, and manifold distribution systems; and pulse		
oximetry, capnography & CO2 detection devices)		
Portable ventilator		
Pulmonary fit tester		
Syringes (3cc and 10cc)		
26 ga ½ " needles (for syringes)		
21 ga 1 ½ " needles (for syringes)		
Triage tags and tarps		
Sterile and non-sterile dressings, all forms and sizes  Gauze, all sizes		
Burn kits		
Pharmaceuticals		
2Pam Chloride		
Adenosine		
Albuterol Sulfate .083%		
Albuterol MDI		
Atropine 0.1 &0.4 mg/ml		
Atropine Auto Injectors		
Benadryl CANA Auto Inicotory		
CANA Auto Injectors  Calcium Chloride		
Calcium Chloride  Calcium Gluconate 10%		
Ciprofloxin PO		
Ciprofloxifi PO  Cyanide kits		
Dextrose		
Dopamine		
Doxycycline PO		
Epinephrine		
Glucagon		
Lasix		
Lidocaine		
Loperamide		
Magnesium sulfate		
Methlyprednisolone		
Narcan		
Nubain		
Nitroglycerin		
Normal saline (500 and 1000ml bags)		
Potassium Iodide		
Silver sulfadiazine		
Sodium bicarbonate		
Sterile water		
Tertracaine		
Thiamine		
Valium		
11. CBRNE Reference Materials

Euthanasia guidelines				
Animal handling guidelines				
Quarantine forms				
Plastic file boxes or filing cabinets				
Chisel				
Disposable scalpels/blades				
Surgical scissors				
Pliers				
Forceps				
Identification system for animals				
Reference materials for specific animal management in disasters/agro-terrorism				

14. CBRNE Prevention & Response Watercraft – (Per compliance with DHS Program guidance and in accordance with State Homeland Security Strategy-allows for purchase of surface boats and vessels for Port Homeland Security purposes, including prevention and response. Licensing, registration, insurance, and on-going operational costs are not allowed. Other DHS guidance applies as well as DHS pre-approval. Must be consistent with State Strategy. Contact SAA-Grant Administrator)

**15. CBRNE Aviation Equipment** (Per compliance with DHS Program guidance requiring local units (or State Agency) of government certification that it already has an operating aviation unit & costs for operation & maintenance of equipment will be paid from non-grant funds and in accordance with State Homeland Security Strategy. General purpose, public safety aircraft, firefighting planes, or police helicopters are not allowed. Requires Pre-approval from DHS-DC. Acquisition must be consistent with State Strategy. Contact SAA Grant Administrator)

16. Cyber Security Enhancement Equipment			
	4.1		
Intrusion detection devices and s	systems		
Configuration management and patch dis	semination tools		
Scanning and penetration to	ools		
Geographic information systems			
Encryption systems			
Firewall and authentication technologies			

Network traffic monitoring and analysis systems

Security hardware and software countermeasures to protect against cyber attacks

# 17. Intervention Equipment

Tactical entry equipment (not including weapons)

Title III Equipment (Pin registers)

Specialized response vehicles and vessels (see Category 6-limitations on funding for these types of vehicles and contact SAA Grant Administrator)

# 18. Other Authorized Equipment and Related Costs

Installation costs for authorized equipment purchased through ODP grants

Maintenance contracts for authorized equipment purchased through ODP grants and acquired through DHS-ODP's Homeland Defense Equipment Reuse (HDER) Program

Multiple Integrated Laser Engagement System (MILES)

Training on CBRNE and cyber security equipment by vendors or local entities-DHS encourages the use of Domestic Preparedness Equipment Technical Assistance Program (DPETAP) for equipment training; however, manufacturer/vendor equipment training, the cost of overtime to attend the training, and costs related to having vendors provide training on equipment to State and/or local units of government is allowed to facilitate the training on and fielding of equipment.

Shipping costs for equipment

Sales tax on equipment

Multiple Integrated Laser Engagement System
